Professional Summary

Java Full Stack Developer with expertise in React.js and Next.js, experienced in building and deploying scalable web applications. Currently developing backend skills using Java and Spring Boot while actively solving Data Structures & Algorithms problems to strengthen problem-solving and system design capabilities.

Technical Skills

Languages: Java, JavaScript, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, GSAP

Backend: Node.js, Express.js, Java, OOP, Backend Development

Database: MongoDB, MySQL, PostgreSQL, Google Sheets (Apps Script Integration)

Tools: Git, GitHub, VS Code, Figma, Netlify

Core Concepts: Data Structures & Algorithms, OOP, REST APIs, Problem Solving

Experience

Full Stack Developer Intern – CNE Associates

Oct 2025 – Dec 2025

- Designed and deployed a live production website using Next.js and Tailwind CSS, ensuring high responsiveness and performance
- Built scalable frontend components and optimized UI/UX for cross-device compatibility
- Integrated Google Apps Script with Google Sheets to automate form submissions and data handling
- Developed API-based integrations to support dynamic content delivery

DTP Designer – PhysicsWallah (Freelance)

May 2023 – Oct 2025

- Designed and structured academic content with high accuracy and consistency
- Collaborated with distributed teams to deliver high-quality materials within deadlines

Projects

Parking Management System (Java, OOP)

GitHub

- Designed a modular parking system simulating real-world vehicle entry, allocation, and exit operations
- Applied OOP principles including encapsulation, inheritance, and abstraction for scalable design

DSA Pattern-Based Solutions (Java)

GitHub

- Solved algorithmic problems using structured pattern-based approaches covering arrays, recursion, and strings
- Improved coding efficiency and logical problem-solving for technical interviews

CNE Associates Website (Live Project)

- Developed and deployed a production-ready company website using modern frontend technologies
- Automated form workflows using Google Sheets integration via Apps Script

Krrid Chess Academy (Full Stack)

- Built an e-learning platform with student-teacher dashboards and structured course delivery
- Designed scalable frontend architecture using Next.js

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering

3rd Year Undergraduate

Expected Graduation: 2027

Current Learning

- Data Structures & Algorithms (DSA)
- Backend System Design Basics
